

INDIVIDUAL COACHING PROGRAMS FOR ENTREPRENEURS

Coaching for Entrepreneurs

I'm wildly passionate about empowering entrepreneurs to take their gifts/message/products out into the world. In most cases, I've found that the reason our business isn't growing in the way we want it to be is because we are getting in our own way.

Through our relationship together, we'll explore your business and what you want to create in the world through your work. We will explore personal development work in your business.

The intensive coaching session is for someone who wants to take their business to the next level and knows they have been getting in their own way. Before the call, Natalie will send you assessment documents to better understand your business, challenges, areas of strengths and areas of growth. During the call, we will work through any unconscious blocks and resistance that are prohibiting you from taking the next step in your business and life. By the end of the call, you will leave feeling supported and received confirmation to move forward.

Who This Is For:

- Has been in business for at least a year
- Entrepreneur who is not consistently making their revenue goals
- Feels a call to serve in a bigger, more impactful way

Who Is This Not For:

- Someone who is not in business full-time
- Someone who is not making at least a \$1000 a month
- Someone who is not willing to do the work
